

1984-1989 C4 Corvette Interior Lamp Delay Module and By-Pass Boards.

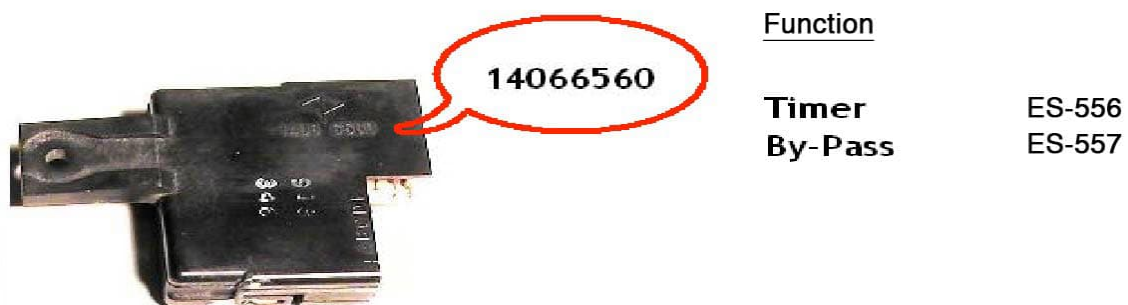

It has come to our attention that 1984-1989 C4 Corvettes could have three different interior lamp delay modules installed in them. Modules can be quickly identified by the part number on the outside of the housing.

The connectors are the same for all 1984-1989 C4 Corvette modules.

The difference's in the module function!

14066560, 14080625 when the key is turned off the interior lamps do not come on.
Lamps only come on when the door or hatch is opened.

10098435 when the key is turned off the interior lamps do come on.
